

**IN THE SPECIFICATION:**

Please amend/replace the paragraph on page 1, lines 15-17 as follows:

It has been known to use activated carbon and/or other sorbent materials in a fuel filter to remove paraffins and polynuclear aromatics (PNAs). Examples of these types of fuel filters are given in U.S. patent numbers 5,094,747 and 5,900,153.

Please insert the following paragraph after line 7 on page 5 as follows:

Figure 2A is a variation of the fuel filter of Figures 1 and 2;

Please insert the following paragraph after line 1 on page 6 as follows:

Figure 10 illustrates a fuel filter in accordance with a third embodiment of the invention;

Please amend/replace the paragraph on page 6, lines 2-3 as follows:

Figure ~~10~~11 is a simplified block diagram showing a sequence of steps in a preferred method according to the invention; and

Please amend/replace the paragraph on page 6, lines 4-5 as follows:

Figure ~~11~~12 is a schematic diagram showing a fuel system according to a fourth embodiment of the invention.

Please amend/replace the paragraph on page 13, lines 12-15 as follows:

A fuel filter according to the embodiment of Figure 10 further includes a filter media 216, disposed in the chamber of the housing, for filtering liquid fuel and for removing sulfur compounds therefrom. The filter media comprising a sulfur-treating composition thereon for reacting with a sulfur-containing compounds.

Please amend/replace the paragraph on page 13, lines 16-17 as follows:

In the embodiment of Figure 10, the filter media includes a plurality of substantially inert particles 218, and a reagent operatively associated with the particles.

Appl. No. 09/974,694  
Notice of Allowance dtd May 19, 2004

IN THE DRAWINGS:

Applicant encloses herewith formal drawings for Figures 1-12, which include Figure 2A.
